*Bio:* I have been drawing and painting my whole life. I began when I was very young. I have taught many art classes at the Mansfield Art Center and other venues. I enjoy helping others create and try new things. I have created many murals and have worked on many public art projects in Mansfield, Bellville, including the crosswalk art, Fork & Fingers, the Carrousel Mural Showcase, the Shawshank Redemption Anniversary, and Art in the Park. I created original sketches of legendary musicians in a show at the Phoenix Brewery called "Art that Rocks: Gone But Not Forgotten." I am also a commission artist and I create custom artwork. I enjoy the challenge that it brings.

## *How I envision public art:*

I would like to see downtown Mansfield become a hot spot for artists and those who appreciate artwork. I envision more murals, public art, crosswalks, sculptures, interactive art & gardens.
